

17th November 2020

Dear Valued Client,

Our communication with you today marks an exciting announcement and milestone. At George Turner Pty. Limited, we have a very long history dating back to 1921 when we lodged our first entry with Australian Border Force. Since then, we have built a reputable, stable, well respected industry leading customs brokerage firm. However, times have changed and the ever-increasing requirement to offer clients more to support their global supply chain has evolved.

Over many years we have forged strong relations with our international logistics partner “K” Line Logistics (Australia) Pty. Limited which in 2015 was formalised by the amicable acquisition of George Turner Pty Limited by K” Line Logistics (Australia) Pty. Limited. From then until now both companies have operated independently, concentrating on their own areas of expertise being Customs Clearance and International Sea and Air Logistics.

However, the time has now come to embark upon our next chapter and announce George Turner Pty Ltd will now be fully integrated into and trade as “K” Line Logistics Australia Pty Limited effective 15th December 2020. This direction for our business will allow us to enhance our service offering and streamline our business for the greater benefit of our clients in being able to provide seamless, comprehensive supply chain solutions, integrating our global freight operations with local Australian customs clearance expertise.

In taking this direction it will allow us to offer not only our customs clearance expertise but also comprehensive, end to end supply chain solutions through “K” Line Logistics global network and their expertise as an IATA & NVOCC logistics company. The same level of commitment to service and personal touch engaging with your esteemed company will only be further enhanced with the expertise that “K” Line Logistics offers in international freight forwarding and logistics services, which could generate greater value-added services, optimization and efficiencies for your supply chain requirements and growth.

Also accompanying this letter is an introduction to “K” Line Logistic and some other pertinent information. We trust together you will embark upon this next chapter along with all the George Tuner staff. In the coming days, your representatives will be in touch to elaborate more about our new organization and clarify any questions you may have. All the current team’s contact details effective 16th December can also be found accompanying this letter.

We sincerely thank you for your support. Meanwhile any further enquires can be directed to the General Manager, Craig Sayer @ craigs@au.klinelogistics.com, 0419 399 855 or via our via email address sales@au.klinelogistics.com

Your Sincerely

Board and Directors
George Turner Pty. Limited
